Stay updated with our Erasmus+ Project,

Empowering SMEs, Empowering Women and
Preparing Tomorrow's Cybersecurity Change Agents

Our mission

Empowering SME employees, particularly women, is the core focus of CyberAgent. This transformative project, funded by Erasmus+, **aims to equip individuals with sustainable cybersecurity and entrepreneurial expertise**. Our mission is to inspire, empower, and upskill participants to become Cybersecurity Change Agents, fostering gender diversity in the IT sector.

CyberAgent **facilitates collaboration among higher education institutions (HEIs), vocational training providers (VETs), and SMEs**. By sharing best practices in cybersecurity, we enhance employability, cyber resilience, and an organization's cybersecurity culture. Through this initiative, we strive to create a positive impact on SME employees, HEIs, VETs, and the broader community.

Vilnius
University

Vilnius University Kaunas Faculty

Renata Danielienė

Meet our project head, a researcher, and the Head of the Cyber Security Research Group at Vilnius University Kaunas Faculty. She is not only a dedicated academic but also a skilled lecturer in the fields of IT and cyber security. She is a council member of Lithuanian Computer Society and National Association of Distance Education. With over a decade of experience in managing international projects, her leadership ensures that our project are executed with precision and innovation.

in

Olemisen

Veli Elyak

Veli Elyak is a senior project and innovation manager at Olemisen. He is in charge of leading the project's research Work Package to describe the cybersecurity landscape in SMEs and educational institutions to map the training needs of the future CyberAgents. As a former Math teacher he is also experienced in curriculum and training development.

in

Teknopark İstanbul MTAL

Ali Gökdemir

He started his teaching career in 2023. Due to his work in the field of Industry 4.0 technologies, he actively participates in the development of Information Technologies Field course contents of Vocational and Technical Education schools affiliated with the Turkish Ministry of National Education. He provides different types of training in the field of cyber security.

in

Prios

Neda Mađarac

MA in applied linguistics, project coordinator and project designer. She will oversee the project progress and contribute to the timely implementation of project activities. She will also connect with VET schools and SMEs.

in

EVM

Adelina Luntraru

Adelina is the responsible of the project in Tenerife, Spain, coordinating the creation of the CyberAgent network, but also contributing to achieving all the project's objectives.

The Women4Cyber Foundation

Camille Montmorency

Camille is our project communication specialist. She amplifies CyberAgent message to our network, inspiring SME employees, particularly women, to embrace cybersecurity and a more secure digital landscape.

in

HackerU

Marcin Bąkowski

As a technical researcher, my primary responsibility involves identifying the specific cybersecurity needs of educational entities and small businesses. Throughout the project, I remain vigilant in monitoring emerging threats and evolving security trends to ensure our recommendations remain relevant and robust.

in

“Grigore C. Moisil” Technological Highschool

Cristina Toma

Cristina teaches English at “Grigore C. Moisil” Technological Highschool, Buzau, Romania. She is responsible for the implementation and coordination of the project’s activities, monitoring and evaluating processes starting from the beginning of the project and continuing until the end of the three-year-period. She is also in charge of creating networks with Cybersecurity Organisations, SME’s and VET schools in Romania.

Highlights

Join the CyberAgent network!

We’re excited to announce the formalisation of our local and regional network.

By joining, you get to network with cyber professionals, increase your visibility, access trainings and workshops, and shape the future of cybersecurity.

Fill in one of these forms to join our network:

- [Cybersecurity Service Providers](#)
- [Organisations and Associations](#)
- [SMEs](#)

Stay tuned for our next Workshop in May! Dates and speakers will be announced soon.

D2.2 Mapping Needs Training Report

CyberAgent has collected insights from partners across Europe and conducted a comprehensive review of current educational offerings. Understanding the preferences of SMEs regarding cybersecurity issues, our report seeks to bridge the gap between current competencies and define the ideal skill set required.

TOP 3 identified gaps

- 1 LOW LEVEL OF THREAT AWARENESS
- 2 LOW LEVEL OF CYBERSECURITY REGULAR TRAININGS
- 3 LOW LEVEL OF VULNERABILITY ASSESSMENT

EUROPEAN SMEs & CYBERSECURITY NEEDS

TOP 3 competencies and knowledge area needs

Source: survey conducted among 175 SMEs from 8 European countries

TOP 3 cybersecurity threats

Phishing & social engineering

AI-driven cyber-attacks

Ransomware attacks

Latest Consortium Activities

On January 25, the **Liceul Tehnologic "Grigore C. Moisil" Buzău** hosted the representatives of the National Cyber Security Directorate/ **Directoratul Național de Securitate Cibernetică (DNSC)** and **Women4Cyber Romania** who support us in carrying out the tasks of the project.

Celebrating International Day of Women and Girls in Science with CyberAgent

February 11th marks the International Day of Women and Girls in Science, a day dedicated to breaking down gender barriers and empowering women and girls to pursue their passions in science, technology, engineering, and mathematics (STEM). At CyberAgent, we are excited to announce our commitment to this cause by focusing on including more women and girls in the field of cybersecurity.

Project coordinator, R. Danielienė, together with colleagues from the Vilnius University community, has today shared insights on the importance of creating more inclusive environments in STEM and specifically in cyber security.

🎯 **Liceul Tehnologic, “Grigore C. Moisil” Buzau** is rapidly developing a CyberAgent project network of partners and makes connections with other cyber security projects.

On February 13, 2024, the representatives of Liceul Tehnologic, “Grigore C. Moisil” Buzau participated in the workshop organised within the European project "Cyber Citizen" initiative by the National Directorate of Cyber Security (DNSC) in Romania, together with Aalto University in Finland and the European Commission Representation in Romania. The event gathered about 30 participants with impact in the field of cybersecurity from diverse backgrounds: public, private, academic and NGOs.

📺 Our project head **Renata Danielienė** recently participated in the “What Lithuanian scientists discovered” show, discussing the critical challenges of cybersecurity and the essential preventive

measures for both organisations and individuals. Highlighting the significance of training for employees and cybersecurity specialists, she delved into effective strategies for enhancing cyber resilience.
