

EMPOWERING CYBERSECURITY CHANGE AGENTS

CyberAgent - ERASMUS-EDU-2022-PI-ALL-INNO -
ERASMUS-LS- Project ID 101111732

Strengthening the skills and competences of SME employees, particularly women, is the core focus of CyberAgent

THE PROJECT

Over the course of the project, CyberAgent empowered SME employees to become **Cyber Security Change Agents**. By combining technical, analytical, risk-management and organisational competences, the project **helped address the cybersecurity skills gap and supported a more diverse and resilient workforce**. As a result, SMEs are better prepared to protect their operations and contribute to a future-ready European economy.

OUR VISION

The CyberAgent project created a multilingual platform through which SME employees, HEI and VET learners, teachers and trainers can develop practical cybersecurity and entrepreneurial competences. The platform supports participants in becoming Cyber Security Change Agents within their organisations, while contributing to greater participation of women in cybersecurity.

WHO IS IT FOR?

HEI and VET
learners and educators

SME employees
in particular women

**Co-funded by
the European Union**

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

RESULTS

Cybersecurity Change Agents

Equipping SME employees with practical cybersecurity skills to lead organisational resilience and digital safety from within.

→ 375 participants completed
one certified training module

Collaborative Platform

Building connections among HEIs, VETs, and SMEs through training, knowledge exchange, and collaborative engagement.

→ 648 registered platform users

Gender Diversity Impact

Promoting inclusion through targeted awareness-raising and training activities.

→ 226 women participated
in the training activities
