

2ND ROUND OF THE PROJECT COMPETITION 2023 OF THE BALTIC-GERMAN UNIVERSITY LIAISON OFFICE

The project competition offers support to universities and research institutions of the Baltic States in cooperation with a partner institution from Germany. Project funding focuses on the exchange and networking of scientists to initiate or further strengthen scientific relations and university cooperation between Germany and the Baltic States.

Application deadline for the 2nd round of the project competition 2023 is on the 15th of March; project implementation period between 01.06.2023 and 15.11.2023.

Project can be supported in the frame of following funding priorities:

- ***Baltica Germanica and Innovativa*** - supports projects in which Baltic-German relations future are conceptually made the starting point for a scientific cooperation project or that are dedicated to cooperation in particularly innovative and application-oriented research contexts. The maximum funding limit is usually 5 000 € per project, however, in justified individual cases for particularly large projects it may be up to 10 000 €.
- ***Internationalisation and academic exchange*** - supports the internationalisation of teaching and the strengthening of the exchange of higher education cooperation between Germany and the Baltic States. The maximum funding limit is 5 000 € per project.
- ***Support for initiation of cooperation*** - supports the initiation of cooperation between German and Baltic universities or scientific institutions. The maximum funding limit is 2 500 € per project.

Conditions of participation:

- The applicant must represent a higher education or research institution in Latvia, Estonia, or Lithuania.
- The applicant must cooperate with a partner, who represents a state or a licensed university or a research institution in Germany. Additionally, more than one partner from Germany and the Baltic States can be involved in the project.
- The project must improve the quality of higher education and the development of science in Estonia, Latvia and/or Lithuania and must strengthen scientific cooperation with Germany.

Further information about the project competition, project guidelines and application forms can be found on the Baltic-German University Liaison Office's homepage: www.hochschulkontor.lv/en
