VYTAUTAS MAGNUS
UNIVERSITY
MCMXXII

26th Conference „Information Society and University Studies“ IVUS2021 is the continuation of the annual conference series organized in succession by three universities: Vytautas Magnus University, Kaunas University of Technology and Vilnius University Kaunas Faculty. The event was started in 1995.

And since 2017 it is a joint event that brings together with IVUS the Symposium for Young Scientists in Technology, Engineering and Mathematics (SYSTEM2021). which is an international symposium for young scientists organized by Silesian University of Technology, Gliwice, Poland since 2016.

These conferences are aimed at Master & PhD students as well as at young scientists, researchers, practitioners of the field to share ideas, present research results and provide new scientific opportunities.

TOPICS

Authors are invited to submit full papers describing original research work associated with Information and Software Technologies in areas including but not limited to:

- Information Systems and Databases
- Smart Systems and Environments
